Hi Tony,

Enclosed is the Heylin "monograph." A friend lent this to me and said I could send it to you, but when you're done, I'll need to return it, but no great rush. It's a fairly quick read, but ultimately there's only a few quotes from you. I'll be interested to know if there's anything you didn't say or if he changed the quote. Other than that the book is okay and he's clearly prejudiced towards the NY stuff over the Minnesota changes which is typical of him, as most of his many books on Dylan are sort of written from the point of if only he was managing Dylan's career, it would have been so much better. Other than that, his writing style is annoying in the sense that he's always quoting either from Dylan songs or at least referencing them or referencing other artists' songs when he mentions them.

Also included is the British magazine *Uncut* which includes a CD of various stuff from various *Bootleg Series* releases. The first article on the album a review says some nice stuff about you. The 2nd article is by Nick Halsted the guy who wanted to interview you. He ends up using your quotes from the book by Kevin Odegard and Andy Gill, *A Simple Twist Of Fate*. I bought my own copy of the magazine, so this is for you to keep. It's also a good example of what the British mags like *Mojo* and *Q* are like, and how much further in depth they go than the few remaining US counterparts.

Finally, there's a little seasonal gift for you and Babette. I like it a lot. Enjoy!

Love to both of you.
